Description and Condition of Collateral: _____

Terms under which the money or other consideration shall be released:

PURSUANT TO Connecticut Public Act No. 11-45 Section 9(a): If collateral security or other indemnity was received on a bail bond by a Surety Bail Bond Agent and such bond is terminated, the Insurer, Managing General Agent or Surety Bail Bond Agent shall return the collateral security or other indemnity, except a promissory note or an indemnity agreement, not later than twenty-one days after receipt of a written report from the court that the bail bond has been terminated. Such collateral security or other indemnity shall be returned to the person who provided the collateral security or other indemnity unless another disposition is provided for by legal assignment to another person of the right to receive the return of the collateral security or other indemnity. If, despite diligent inquiry by the Insurer or Managing General Agent to determine whether the bail bond has been terminated, the court fails to provide any written report on termination, the collateral security or other indemnity, except a promissory note or an indemnity agreement, shall be returned to the person who provided the collateral security or other indemnity not later than twenty-one days after the Insurer, Managing General Agent or Surety Bail Bond Agent has become aware that the bail bond has been terminated.
